

Die angegebenen Pantone, RAL und NCS Werte sind Annäherungswerte und wurden unter Normalbedingungen (Tageslicht) bestimmt. Aufgrund der unterschiedlich strukturierten Oberfläche entstehen Farbnuancen. Für einen genauen Abgleich fordern sie bitte Farbmuster bei uns an.

The Pantone, RAL and NCS codes are given as approximations and were determined under normal conditions (daylight). Due to the differently structured surface, color nuances are created. For an exact comparison, please request color samples from us.
